

The Challenges of Commercial Roofing Simplified

XTRAFLEX®
BY POLYGLASS

“ XtraFlex roof system options and service provide us a complete roofing solution. ”

• A Relationship Built For The Lifecycle Of Your Roof

We pride ourselves on building long-lasting relationships with customers.

Whether discussing building needs with owners, creating concepts with design engineers, conducting installation progress reviews, or managing warranties with facility managers, the XtraFlex team works directly with clients during each project phase.

Focused on the client’s needs and project scope, we deliver unsurpassed performance and support that lasts throughout the lifecycle of the roof.

• Repair Or Replace

The XtraFlex team evaluates every project to understand its unique challenges and offers the most suitable long-term solution that presents the greatest energy savings, while keeping budget needs in mind. Whether repairing, restoring, retrofitting, or replacing the existing roof, the experts at XtraFlex guide you through the best options to address your roofing needs.

Single Minded About Saving Time & Energy

• Products And Design

XtraFlex systems are designed to provide better protection, higher reflectivity, and the most cost-efficient coverage for building exteriors.

Matching the right system with the right design solution is critical in saving time and energy.

• Support And Satisfaction

The XtraFlex team assists clients from project inception to completion. Involved in all aspects of a project, we deliver clear communication and a streamlined process that keeps the project moving forward and completes it on time and on budget.

• Green Technology

XtraFlex focuses on sustainability through both energy efficiency and environmentally responsible solutions. This focus not only includes improving the performance of building envelopes, but also utilizes products manufactured with post-consumer recycled content.

FLEXible System Options

XtraFlex offers a wide range of roofing and waterproofing options designed to protect the building in the harshest elements.

FLEXible Product Support

Partnering with local representatives gives clients access to knowledgeable professionals who are familiar with every aspect of the project and can respond quickly and effectively to product or installation variations.

FLEXible Warranty Protection

XtraFlex stands behind its products and services by offering the most reliable warranty programs in the industry, even offering warranties that can add years of additional protection beyond the original system warranty.

Single-Source Commercial Roof Solutions

Design, Build, Maintain

From project concepts and product specifications to progress inspections and warranty support, XtraFlex is there during every phase of the project.

FLEXible Solutions

We view every project as unique and provides customized solutions for each client's needs. From product selection to post-installation support, XtraFlex offers the best solution.
